PROFESSIONAL SUMMARY

MSc in Artificial Intelligence specializing in NLP and BSc in Software Engineering with 2 years experience in Data, ETL and Digital Banking. Specialized in reporting automation, KPI dashboard development and sentiment analysis to reduce customer churn. Proficient in Python, SQL, Power BI and LLMs. Goal: Transform data into concrete business decisions.

CORE SKILLS

AI & Data Science : Python, Pandas, Scikit-learn, TensorFlow, NLP, BERT, CamemBERT, Hugging Face

BI & Analytics : Advanced SQL, ETL, Power BI, Matplotlib, KPIs, A/B Testing, Data Quality

Databases : SQL Server, Oracle, MySQL, MongoDB, Data Modeling, Optimization

Engineering & Tools : Git, Google Colab, Jupyter, Gradio, Streamlit, APIs, Power Automate

PROFESSIONAL EXPERIENCE

Data Analyst & Quality | Master's Project | 2024 - 2025

University of Blida 1

- BI & KPIs: Built dashboards to monitor customer satisfaction and identify trends
- Big Data: Web scraping and processing of 10,000+ multilingual customer comments
- Predictive Modeling: Identified churn factors using ML with 90% accuracy
- Result: Thesis applied to NPS and banking churn reduction

ETL Technician & Data Quality | R&D Project | 2024 - 2025

University of Blida 1

- Developed ETL pipelines with Python, Pandas, SQL to automate reporting
- Data management and quality control on MySQL, MongoDB, Oracle
- Implemented Git versioning and process documentation

Radio Columnist / Journalist | Ifrikya FM | Mar - Jul 2025, Algeria

- Hosted Tech & Innovation programs
- Developed public speaking and technical communication skills

FEATURED PROJECTS

Customer Churn & Sentiment Detector - AI for Banking

- Gradio + NLP CamemBERT app that analyzes 500+ complaints in 2s vs 3 days manually
- Generates Report + Chart + ROI. Potential: -2% churn = +\$50,000/month
- Tech: Python, Gradio, BERT, Pandas

Bank Database Management System

- SQL Server modeling for Standard, Student, Foreign Currency accounts with business rules
- Ensured data integrity through constraints and testing

EDUCATION

MSc Artificial Intelligence - NLP Specialization | Univ. of Blida 1, Algeria | 2025

Thesis: "Sentiment Analysis on Service Quality of mobiles operators of Algeria "

BSc Information Systems and Software Engineering | Univ. of Blida 1, Algeria | 2023
